

INTERNATIONAL OIL FIELD SERVICES b.v.

# RELIEF VALVES

Type B & C - 2" & 3"  
Flanged and Threaded

2" Type B

3" Type B

3" Type C (Flanged)

Our Reset Relief Valve is completely interchangeable with Cameron & Retsco type B and C, 2" & 3" .

The type B is used for as a safety valve on slush pumps and mud manifolds to protect against damaging pressure surges.

Hydraulic use: 1500-6200 PSI W.P.

Gas use: 1500-2500 PSI W.P.

All valves come with:

- \* Data books
- \* Material certification & Traceability
- \* DNV type approval available
- \* Good for H2S Service
